

March 12, 2010

Hon. Maggie Brooks
Monroe County Executive
110 County Office Building
39 West Main Street
Rochester, NY 14614

Dear County Executive Brooks:

The Town of Pittsford is in full support of Monroe County submitting a joint response to the Google Request for Information (RFI) for high-speed internet access.

There are many people in the Pittsford community who would welcome and encourage high-speed internet access. As you know, Pittsford residents are very well educated and computer and internet access is an important part of their personal and professional lives.

Additionally, there are two colleges within Pittsford, Nazareth and St. John Fisher College. The students, faculty and staff would also be beneficiaries of the high-speed access.

County Executive Brooks, I applaud your leadership in recognizing the value of this opportunity and your commitment on behalf of Monroe County residents to coordinate a response to the RFI on all of our behalf.

Very truly yours,

A handwritten signature in black ink, which appears to read "William A. Carpenter". The signature is fluid and cursive, with the first name "William" being the most prominent.

William A. Carpenter
Supervisor
Town of Pittsford
